

## **GoFoton and Sourcecolo team-up for more powerful data center solutions**

*Partnership drives greater customer value as high-capacity AI data centers boom*

May 8, 2025 Somerset, NJ

[GoFoton](#), an industry leader in advanced optics and photonics technology, and [Sourcecolo](#), a prominent technology broker known for securing space and power for data centers, are excited to announce a new strategic partnership. This collaboration combines GoFoton's cutting-edge solutions with Sourcecolo's expertise in large-scale data center operations, providing a comprehensive suite of services that cover network technology design, sourcing, installation, and implementation.

This partnership enables Sourcecolo to significantly enhance its offerings by adding advanced connectivity solutions, ensuring clients receive a full spectrum of data center services. [GoFoton's products](#) are distinguished by unmatched density, modularity, configurability, and accessibility, making them perfect for the rapidly evolving [needs of modern AI data centers](#).

As Sourcecolo continues to grow its portfolio of data center services, the partnership with GoFoton serves as a cornerstone for expanding their capabilities. Sourcecolo will now be able to provide customers with both the essential space and power solutions alongside robust, high-performance connectivity options. With GoFoton's innovative technology, Sourcecolo can better support end users and tenants with seamless, scalable, and reliable infrastructure solutions.

High density connectivity for AI data centers

Steve Rogers, Partner at Sourcecolo, shared his thoughts on the partnership:

*"We are thrilled to partner with GoFoton. Their state-of-the-art fiber optic solutions align perfectly with our commitment to delivering complete and efficient solutions for our clients. This collaboration allows us to offer a more comprehensive and integrated approach that meets the growing demand for high-density, highly configurable*

*connectivity in AI data centers. Everything is about execution and partnering with Go!Foton helps our customers meet or exceed their delivery timelines. This partnership elevates the value we provide to our customers."*

The partnership with Go!Foton marks an exciting milestone in Sourcecolo's continued efforts to provide comprehensive data center services that meet the evolving needs of modern businesses. By combining Go!Foton's innovative fiber optic solutions with Sourcecolo's decades of experience, the two companies are poised to drive the next wave of data center growth and innovation.
